

Answers to FAQs

Q: Can I check whether the exclusion of CIs on Supergen Marine Phase 4 and Grand Challenge awards from the recent call for proposals excludes researcher co-investigators?

A: I'm afraid that it excludes anyone in receipt of Phase 4 or Grand Challenge funding, directly or indirectly. We are trying to stimulate and support new partners.

Q: What are included in the funding support, such as T&S, PDRA and consumables etc.?

A: This is detailed in the "Call document" .pdf that describes the call and is available here - <https://supergen-marine.org.uk/sites/supergen-marine.org.uk/files/attachments/news/20170705/UKCMER%20Call%20for%20Research%20Projects.pdf>

Q: I would like to ask if one may or is expected to include letters of support of industrial partners in the final submission.

A: Applicants may append up to three letters of support, where they are evidencing an industrial partner's significant and tangible commitment to the project proposed.
